Email: chaudhary.fsl@gmail.com

## PROFILE SUMMARY

---

- Experienced cybersecurity professional with a demonstrated history of working in the management and technology consulting industry
- Fast learner, hard worker and holds a very highly motivated personality
- Team oriented, enjoys collaborating in a diverse team environment

## EDUCATION

---

New York University (NYU), New York, NY  
MS, Cybersecurity

Expected Graduation: 12/2019

The City College of New York, CUNY, New York, NY  
BS, Electrical Engineering

Graduated: 05/2017

## TECHINICAL SKILLS

---

- Programming Languages: HTML5/CSS3, Ruby, Python, JavaScript, C#, MIPS Assembly
- Frameworks/Technologies: Ruby on Rails, PostgreSQL, MS SQL Server, IIS, Visual Studio, AWS, Heroku, Git/Github
- Security Tools/Frameworks: Splunk (Certified Power User), Cisco security suite (AMP, CTA, ASA Firepower), McAfee EPO, Cylance, IronPort, Metasploit, OSINT (VirusTotal, Hybrid Analysis etc.)

## EXPERIENCE

---

Booz Allen Hamilton, Midtown, NYC  
*Cyber Security Engineer*

07/2017 - Present

- Served as Incident Triage Analyst in a 24/7 Security Operations Center (SOC)
- Implemented new processes and procedures for detecting, assessing, and mitigating cybersecurity events
- Developed Splunk queries and dashboards in support of various use cases
- Developed playbooks and runbooks for responding to different cyber security incidents and known APTs
- Built internal tools to automate and streamline daily operational tasks
- Collaborated with Threat Defense Operations team to conduct threat hunting exercises within the environment.

NYC Department of Transportation, Financial District, NYC  
*Application Developer Intern*

06/2016 - 08/2016

- Technology stack: C#, ASP.NET, HTML5/Css3, jQuery, AJAX and Twitter Bootstrap 3.3
- Worked with SQL Server database and designed stored procedures
- Utilized SAP crystal reports to generate business analytics
- Utilized IIS migration for Windows Server 2008 to 2012 for deployment to QA/production

Bandwagon Taxi-Share (bandwagon.io), Brooklyn, NY  
*Software Engineering Intern*

08/2015 - 03/2016

- Utilized external APIs (geographical data) for data analysis
- Extracted data from time-lapse photo collections through custom computer vision tools
- Built automated metrics analysis email dashboard

Wildcard Inc. (trywildcard.com), Little Italy, NY  
*Data Analyst Intern*

05/2014 - 07/2015

- Built internal tools to complement data analysis efforts
- Built data analyst starter kit for offshore team

## PROJECTS

---

Capstone Project | <http://RescueSeniors.herokuapp.com>  
*Electrical Engineering and Computer Science*

08/2016 - 05/2017

- Built a fault tolerant system to aid elderly patients during critical health emergency situations

## Affiliations

Member: Institute of Electrical and Electronics Engineering (IEEE)

2012 - Present
